EDUCATION

Saint Martin's University | Dean's List 2019 – 2024

M.S. Computer Science (May 2024) | B.S. Computer Science (May 2023)

Coursework: Data Structures & Algorithms, Database Management, AI, Cloud Technologies, Cryptography, Game Development

Saint Martin's University Track and Field member, 2019 – 2024

PROJECTS

DentaVision | *React, Node.js, Express, MongoDB, Claude AI* | denta-vision.vercel.app

- Shipped a live full-stack dental SaaS (Vercel + Render) with dual-role JWT auth, clinic admin portal, NPI validation, Stripe payments, and PWA support — concept to production in weeks
- Integrated Claude Vision API to extract CDT codes, tooth numbers, and surfaces from treatment plan photos, auto-grouping results into prioritized visit sequences
- Built interactive SVG tooth chart with 3 anatomical views, per-surface condition overlays, and a context-aware AI chat assistant with full treatment plan injected as conversation context

AgentForge | *Next.js 14, TypeScript, Prisma, OpenAI API, Anthropic* | github.com/Larmstrong1127/agentforge

- Built a multi-LLM agent comparison platform with real-time SSE streaming from GPT-4 and Claude simultaneously, enabling side-by-side prompt evaluation
- Implemented parallel prompt execution with Prisma-backed conversation history and a type-safe Next.js 14 App Router UI with full TypeScript throughout

DocuChat | *Python, FastAPI, ChromaDB, Sentence Transformers, Claude AI*

- Built an end-to-end RAG pipeline: PDF/TXT parsing, sliding-window chunking, all-MiniLM-L6-v2 embeddings, ChromaDB cosine vector search, and Claude-generated answers with bracketed source citations
- Served via FastAPI REST API with a vanilla JS single-page frontend; supports multi-document indexing and source-attributed Q&A with relevance scoring

MedInsight API | *Python, FastAPI, LangGraph, AWS ECS, Docker, Terraform*

- Containerized and deployed a production FastAPI service on AWS ECS Fargate with Terraform-provisioned infrastructure (ECR, S3, DynamoDB) and automated CI/CD pipeline
- Built a multi-agent LangGraph pipeline with RAG retrieval, AES-256 field-level encryption, and HIPAA-aligned audit logging across all data access events

Echoed Nights | *Unity, C#, NavMesh AI* | Published on Steam

- Shipped a commercial first-person horror game on Steam with NavMesh pathfinding FSM enemy AI, dynamic difficulty scaling, and full end-to-end ownership from design doc through QA and release

EXPERIENCE

Patient Care Coordinator, 425 Dental 2024 – Pres.

- Generated monthly KPI reports for executive leadership and identified scheduling gaps that improved capacity utilization across a 10+ provider multi-specialty practice
- Managed patient recall workflows and front-end data systems; clinical experience directly informed the design and feature set of DentaVision

Graduate Assistant / TA, Saint Martin's University 2023 – 2024

- Supported 8+ students per semester through office hours, code reviews, and 1:1 debugging sessions in data structures, algorithms, and database coursework
- Designed and graded project rubrics; provided structured written feedback to reinforce forward-thinking software design practices

Sales Service Expert, 24HR Fitness – Issaquah 2022 – 2023

- Consistently exceeded monthly enrollment targets through consultative selling; onboarded new members and maintained long-term retention relationships

SKILLS

Languages: JavaScript, TypeScript, Python, C#, SQL, Java, HTML/CSS

Frameworks & Libraries: React, Next.js, FastAPI, Node.js, Express.js, ASP.NET Core, Prisma, EF Core, Unity 3D

AI & Cloud: Claude AI, OpenAI API, LangGraph, RAG, ChromaDB, AWS (ECS/S3/DynamoDB), Docker, Terraform, SSE Streaming

Tools: MongoDB, MySQL, SQLite, Git/GitHub, JWT Auth, REST APIs, Agile, VS Code, Visual Studio
